Wall Bed – Mattress

The WallBeds Australia mattress is a medium-firm mattress which offers great comfort and support. The combination of the memory foam topper and up to 3000 springs sewn into individual fabric pockets reduces motion transfer, helping to minimise partner disturbance.

The mattress topper consists of a foam base, memory foam and fireproof linen fabric; you will feel like you are melting into the mattress.

The mattress is vacuum-packed and shipped in a wheeled cardboard box that makes it easy manoeuvre.

Conveniently Packed and Easily Moved
