Standalone Wall Bed (No Cabinetry)

The NeXt Bed is one of the most modern and efficient wall bed designs to date. Constructed from lightweight steel and using a sprung slatted base to provide maximum support to the shape of your body.

Once secured to either the skirting or the floor, the NeXt Bed has the flexibility to operate as a free-standing wall bed independent on any cabinetry.

When lowering the NeXt Bed, the legs automatically fold down from underneath the bed, making it the perfect wall bed to conceal in your sliding or folding door wardrobe.

The NeXt Bed is available in Single, Double and Queen sizes. Without any cabinetry the NeXt Bed can accommodate a mattress up to 30cm.

The price displayed does not include the mattress.
